

## DC1200

### Chlorine Colorimeter Kit

The 1200 single test, direct reading colorimeter incorporates design advances that enhance reliability, improve accuracy, and simplify the calibration process, all in a portable, hand-held package.

**Water Resistant Design:** Designed with excessive exposure to moisture in mind, this 1200 colorimeter delivers troublefree performance in the field and lab.

**0-4 ppm Chlorine:** No need to select a low or high range. The 1200 covers the entire critical chlorine range of 0-4 ppm with a 0.05 sensitivity.

## Pocket Colorimeter II Kit

### 5870051

#### Chlorine Dioxide

Pocket Colorimeter II Analysis System, Chlorine Dioxide, 0.05 to 5.00 mg/L, with reagent set (100 tests), manual, and carrying case. USEP approved/accepted for drinking water.

### 5870062

#### Chlorine Free and Total

Pocket Colorimeter II Analysis System, Chlorine Free and Total has two ranges 0.05 to 4.00 and 0.1 to 10.0 mg/L, with reagent set (100 tests), manual, and carrying case, USEPA approved/accepted for drinking water and wastewater.

### Ordering Information

|         |  |          |
|---------|--|----------|
| 3670-01 | DC1200 Chlorine Colorimeter Kit, 0-4ppm  | \$380.00 |
| 6903A-J | Chlorine DPD #1 Instrument Grade Tablets, Box of 100                                     | \$16.50  |
| 6197A-J | Chlorine DPD #3 Instrument Grade Tablets, Box of 100                                     | \$16.50  |
| 5870051 | Pocket Colorimeter II Analysis System, Chlorine Dioxide                                  | \$600.00 |
| 5870062 | Pocket Colorimeter II Analysis System, Chlorine Free and Total                           | \$600.00 |
| 2802300 | DPD Free Chlorine & Chlorine Dioxide Reagent SwifTest™ Dispenser; 10ml sample; 250 tests | \$97.00  |
| 2802400 | DPD Total Chlorine Reagent SwifTest™ Dispenser; 10ml sample; 250 tests                   | \$97.00  |
| 6811-J  | Glycine Solution, 100 mL   | \$30.00  |
