

Desktop Alarm Monitoring Autodialer System

Phonetics SP1104

Phonetics SP1108

Environmental Process monitoring over telephone lines with full programming capabilities

- The versatile Model 1104 and Model 1108 are designed for programming flexibility
- Variable alarm recognition and "listen-in" time, with alarm disable, security code access, remote sensing, and other programming features
- Automatically contacts you at up to 4 or 8 locations if unsafe conditions occur
- Allows you to contact your system using any telephone, to receive status reports and listen-in to on-site sounds

Alerts you immediately if problems arise:

The Sensaphone automatically contacts you by phone at up to four different phone numbers, to alert you of unsafe conditions. The system communicates in voice-synthesized English, and even lets you "listen-in" to actual on-site sounds.

Built-In Features:

- User-selectable inputs, temperature or dry-contact
 - Microphone monitors high sound alarms and enables remote listen-in
 - User Programmable: Alarm recognition time, Call delay, Inter-call delay, Message repetitions
 - Temperature sensing in Fahrenheit (-20°F to 150°F) or Celsius (-29°C to 65°C)
 - Nonvolatile memory for all programmed parameters
- Versatile Dial-Out Capabilities:
- Alert sensors trigger pulse or tone dialout automatically
 - SP-1104 dials up to 4 numbers, up to 32 digits each
 - SP-1108 dials up to 8 numbers, up to 32 digits each
 - Continues dialing numbers in sequence, until

acknowledged

- Intelligent dial out to beepers and pagers

Easy Control Access:

- Keypad for local programming and status report
- Unit can be called from any phone to verify status of all monitored conditions
- Local or remote enabling/disabling of all dial-out conditions
- Can share a single phone line with an answering machine, allowing full operation of both units
- Programmable security code access

Specifications

Size	7-1/2" W, 2" H, 8-1/2" D
Batteries	(6) 1.5 Volt "D" cell alkaline (Not Included)
Telephone Interface	FCC approved RJ-11 plug-in modular connector with 6' cord
Operating Range	Unit should be kept between 32°F and 120°F
Temp. Sensing Range	-20°F to 150° F with remote temperature sensor
Shipping Weight	4 lbs

NRTL listed for compliance with U.L Standard 1459. Technical data subject to change without notice.
