

## Water Quality Ion Test Strips

- Non Hazardous
- High Sensitivity
- Fast (less than 1 minute)
- Inexpensive
- Easy-to-use
- Reliable
- Accurate
- Safe
- No MSDS
- Portable Pocket size pack
- Patented
- On-site testing

Unique patented technology of these strip tests provides very high quality, reliability and sensitivity of measurement at a low cost.

These patented strips provide an alternative to wet chemical tests. They do not require a mechanical reader even for 0.05 ppm sensitivity. The unique indicator is reactive only to the ion tested and is very specific, thereby minimizing interferences. Accurate results are achieved in under one minute.

This product is safe and easy to use since there are no chemicals to mix, an MSDS is not required, and the state of the art indicator is non-carcinogenic.
